

Vol	Page	Title / Keywords	
4002	112-118	Title:	<u>Hepatitis C virus micro-elimination in people who inject drugs: Challenges and chance in Taiwan and worldwide</u>
		Keywords:	<i>direct-acting antivirals, hepatitis C virus, micro-elimination, opioid substitution therapy, peoplewho inject drugs</i>
	119-130	Title:	<u>miR-107-5p ameliorates neurological damage, oxidative stress, and immune responses in mice with Alzheimer's disease by suppressing the Toll-like receptor 4 (TLR4)/nuclear factor-kappaB(NF-κB) pathway</u>
		Keywords:	<i>Alzheimer's disease, amyloid-Aβ, miR-107-5p, neurological damage, TLR4/NF-κ</i>
	131-138	Title:	<u>Tissue and serum miR-149-3p/5p in hospitalized patients with inflammatory bowel disease: Correlation with disease severity and inflammatory markers</u>
		Keywords:	<i>biomarkers, disease activity, inflammatory bowel disease, inflammatory cytokines, microRNAs</i>
	139-149	Title:	<u>Reduced miR-513a-5p expression in COPD may regulate airway mucous cell hyperplasia through TFR1-dependent signaling</u>
		Keywords:	<i>airway mucous cell hyperplasia, COPD, miR-513a-5p, transferrin receptor</i>
	150-160	Title:	<u>METTL3-mediated m⁶A methylation of TRAF5 inhibits lung adenocarcinoma cell metastasis via activation of the PI3K/AKT/NF-κB signaling pathway</u>
		Keywords:	<i>lung adenocarcinoma, m⁶A, METTL3, PI3K/AKT/NF-κB, TRAF5</i>
	161-174	Title:	<u>The role of KDM4A-mediated histone methylation on temozolomide resistance in glioma cells through the HUWE1/ROCK2 axis</u>
		Keywords:	<i>glioma, histone methylation, KDM4A, ROCK2, temozolomide</i>
	175-187	Title:	<u>Curcumin suppresses the Wnt/β-catenin signaling pathway by inhibiting NKD2 methylation to ameliorate intestinal ischemia/reperfusion injury</u>
		Keywords:	<i>curcumin, DNA methylation, intestinal ischemia/reperfusion (I/R) injury, naked cuticle homolog2 (NKD2), Wnt/β-catenin signaling pathway</i>
	188-197	Title:	<u>Pretreatment gamma-glutamyl transferase predicts mortality in patients with chronic hepatitis B treated with nucleotide/nucleoside analogs</u>
		Keywords:	<i>GGT, HBV, mortality, NA, treatment</i>
	198-200	Title:	<u>Melanoma-associated retinopathy with presentation of transient multiple hyper-autofluorescent dots</u>
	201-202	Title:	<u>Dynamic change in silent sinus syndrome</u>

	203-205	Title: <u>Effect of wearing a surgical mask on intraocular pressure during COVID-19 pandemic</u>
