

Vol	Page	Title / Keywords	
4012	1043-1056	Title:	<u>IGF2BP3-dependent N6-methyladenosine modification of USP49 promotes carboplatin resistance in retinoblastoma by enhancing autophagy via regulating the stabilization of SIRT1</u>
		Keywords:	<i>autophagy, carboplatin resistance, IGF2BP3, N6-methyladenosine</i>
	1057-1067	Title:	<u>Nuciferine inhibits osteoclast formation through suppressing glycolysis metabolic programming and ROS production</u>
		Keywords:	<i>glycolysis, Nuciferine, osteoclast, ROS</i>
	1068-1076	Title:	<u>Diagnostic value of sFlt-1/PlGF-1 ratio and plasma PROK1 for adverse pregnancy outcomes in women with hypertensive disease of pregnancy</u>
		Keywords:	<i>hypertensive disease of pregnancy, placental growth factor-1, preeclampsia, prokinin-1, soluble fms like tyrosine kinase-1</i>
	1077-1085	Title:	<u>Preventive treatment effects on brain structures and functions in patients with chronic migraine: A multimodal magnetic resonance imaging study</u>
		Keywords:	<i>functional connectivity, functional MRI, migraine, pain-matrix network, structural connectivity</i>
	1086-1094	Title:	<u>Effects of insulin glargine U300 versus insulin degludec U100 on glycemic variability, hypoglycemia, and diet evaluated by continuous glucose monitoring in type 1 diabetes: a retrospective cross-sectional study</u>
		Keywords:	<i>continuous glucose monitoring, glycemic index, long-acting insulin, nutrient, time factor</i>
	1095-1105	Title:	<u>Models incorporating physical, laboratory and gut metabolite markers can be used to predict severe hepatic steatosis in MAFLD patients</u>
		Keywords:	<i>fatty liver, metabolic-associated fatty liver disease, short-chain fatty acids, tryptophan</i>
	1106-1117	Title:	<u>Metabolic syndrome and spatial disparities: The role of socioeconomic deprivation and medical resource availability in the Cijin district, Taiwan</u>
		Keywords:	<i>health inequality, medical resource availability, metabolic syndrome, socioeconomic area deprivation</i>
	1118-1120	Title:	<u>Navigator-assisted transnasal endoscopic approach for optic nerve decompression in a patient with traumatic optic neuropathy</u>
	1121-1122	Title:	<u>Chinese translation validation of the adherence barrier questionnaire (intravitreal anti-vascular endothelial growth factor therapy) in Taiwan</u>
