

Vol	Page	Title / Keywords	
4102	e12926	Title:	<u>Narrative review of neoadjuvant therapy in patients with locally advanced colon cancer</u>
		Keywords:	<i>locally advanced colon cancer, mismatch repair, neoadjuvant chemoradiotherapy, neoadjuvant chemotherapy, neoadjuvant immunotherapy</i>
	e12930	Title:	<u>FOXA1 activates NOLC1 transcription through NOTCH pathway to promote cell stemness in lung adenocarcinoma</u>
		Keywords:	<i>FOXA1, lung adenocarcinoma, NOLC1, NOTCH, stemness</i>
	e12924	Title:	<u>NEDD4L inhibits epithelial-mesenchymal transition in gastric cancer by mediating BICC1 ubiquitination</u>
		Keywords:	<i>BICC1, epithelial-mesenchymal transition, gastric cancer, NEDD4L, PI3K/AKT</i>
	e12927	Title:	<u>Activation of PPARγ regulates M1/M2 macrophage polarization and attenuates dextran sulfate sodium salt-induced inflammatory bowel disease via the STAT-1/STAT-6 pathway</u>
		Keywords:	<i>inflammatory bowel disease, macrophage polarization, PPARγ, STAT-1/STAT-6 pathway</i>
	e12923	Title:	<u>Curcumin-induced exosomal FTO from bone marrow stem cells alleviates sepsis-associated acute kidney injury by modulating the m6A methylation of OXSRI</u>
		Keywords:	<i>bone marrow stem cells, exosomes, FTO, OXSRI, sepsis-associated AKI</i>
	e12928	Title:	<u>The impact of the muscle mass-to-fat ratio on the prognosis of patients undergoing pancreaticoduodenectomy for pancreatic cancer</u>
		Keywords:	<i>complications, muscle mass-to-fat ratio, overall survival, pancreatic cancer, pancreaticoduodenectomy</i>
	e12929	Title:	<u>Real-world efficacy and safety of universal 8-week glecaprevir/pibrentasvir in patients with chronic hepatitis C with early chronic kidney disease or pre-end-stage renal disease: Insights from a nationwide hepatitis C virus registry in Taiwan</u>
		Keywords:	<i>chronic hepatitis C (CHC), chronic kidney disease (CKD), direct-acting antivirals (DAA), end-stage renal disease (ESRD), real-world</i>
	e12925	Title:	<u>Safety of transarterial chemoembolization on renal function in combined hepatocellular carcinoma and chronic kidney disease patients</u>
		Keywords:	<i>acetylcysteine, chronic renal disease, Cockcroft-Gault glomerular filtration rate, contrast-induced nephropathy, liver cirrhosis</i>

	e12935	Title: <u>Outpatient management of large scalp aplasia cutis congenita without skull defect in a case of Adams-Oliver syndrome</u>
