

Vol	Page	Title / Keywords	
4105	e70003	Title:	<u>LncRNA TUSC7 Inhibits Cell Proliferation in Chronic Lymphocytic Leukemia by Modulating the miR-211-5p/SLC37A3 Axis</u>
		Keywords:	<i>ceRNA chronic lymphocytic leukemia miR-211-5p SLC37A3 TUSC7</i>
	e70019	Title:	<u>Mechanism of microRNA-152 Regulating Decidual Natural Killer Cell Viability and Affecting Trophoblast Cell Invasiveness via the HLA-G/KIR2DL4 Axis</u>
		Keywords:	<i>cytokines decidual natural killer cells HLA- G/KIR2DL4 HTR-8/SVneo cells miR-152</i>
	e70004	Title:	<u>LncRNA SNHG14 Delivered by Bone Marrow Mesenchymal Stem Cells-Secreted Exosomes Regulates Osteogenesis and Adipogenesis in Osteoporosis by Mediating the miR-27a-3p/LMN1 Axis</u>
		Keywords:	<i>adipogenesis bone marrow mesenchymal stem cells exosomes LncRNA SNHG14 osteogenesis</i>
	e12949	Title:	<u>IGF2BP2-induced circRNF20 facilitates breast cancer cell proliferation via the HuR/CDCA4 axis</u>
		Keywords:	<i>breast cancer CDCA4 circRNF20 HuR IGF2BP2</i>
	e70007	Title:	<u>PSMD14 Transcriptionally Activated by MEF2A Promotes Pancreatic Cancer Development by Upregulating SPON2 Expression</u>
		Keywords:	<i>m6A MEF2A pancreatic cancer PSMD14 SPON2</i>
	e70005	Title:	<u>Expression and Clinical Significance of CXCR5 and LAG-3 on Peripheral Blood CD8+ T Cells in Patients With Diffuse Large B-Cell Lymphoma</u>
		Keywords:	<i>CD8 + T cells C-X- C chemokine receptor type 5 diffuse large B-cell lymphoma lymphocyte activation gene-3 prognosis</i>
	e70000	Title:	<u>The Relationship Between Serum SFRP5, ApoA-I, HDL3-C Level and In-Stent Restenosis After PCI in Acute Myocardial Infarction and the Combined Predictive Value</u>
		Keywords:	<i>acute myocardial infarction apolipoprotein A-I in-stent restenosis percutaneous coronary intervention secreted frizzled-related protein 5</i>
	e70002	Title:	<u>Impact of Clostridioides difficile Infection on Clinical Outcomes in Hospitalized IBD Patients and the Role of Fecal Microbiota Transplantation: A Retrospective Cohort Study</u>
		Keywords:	<i>clinical outcomes Clostridioides difficile infection fecal microbiota transplantation inflammatory bowel disease risk factors</i>
	e12953	Title:	<u>A rare case of gastrointestinal diffuse large B cell lymphoma with cold agglutinin disease presentation</u>
