

Vol	Page	Title / Keywords	
4108	e70035	Title:	Investigating the Impact of hsa_circ_0005255 on Proliferation and Autophagy in Crohn's Disease Intestinal Epithelial Cells Through miR-23a-3p-Mediated NCOA3 Expression
		Keywords:	<i>autophagy Crohn's disease hsa_circ_0005255 miR-23a-3p NCOA3</i>
	e70031	Title:	Circ_0006646 Promotes the Progression of Osteoarthritis via Upregulating CDH11 Expression in an IGF2BP2-Dependent Manner
		Keywords:	<i>CDH11 chondrocyte circ_0006646 IGF2BP2 osteoarthritis</i>
	e70029	Title:	A Preliminary Study on the Therapeutic Role of $\gamma\delta$T Cells in Triple-Negative Breast Cancer
		Keywords:	<i>adoptive immunity breast cancer gamma delta T ($\gamma\delta$T) cell immunotherapy triple-negative breast cancer</i>
	e70010	Title:	RNA Binding Protein YTHDF2 Inhibits Synovial Fibroblast Inflammation and Bone Injury in Rheumatoid Arthritis by Reducing the mRNA Stability of IL-6R
		Keywords:	<i>fibroblast-like synoviocytes IL-6R inflammation rheumatoid arthritis YTHDF2</i>
	e70034	Title:	Monotropein Induced Ferroptosis to Alleviate the Progression of Hepatocellular Carcinoma via Regulating Nrf2/HO-1/GPX4 Axis
		Keywords:	<i>anti-tumor ferroptosis hepatocellular carcinoma monotropein Nrf2/HO-1/GPX4 axis</i>
	e70039	Title:	Major Ozonated Autoheamotherapy Alleviates Skeletal Muscle Ischemia/Reperfusion Injury by Regulating Nrf2/HO-1 Pathway
		Keywords:	<i>ischemia/reperfusion major ozonated autoheamotherapy Nrf2/HO-1 oxidative damage</i>
	e70036	Title:	Impact of Hepatitis C Virus Clearance on Cardiovascular Risk: A Real-World Experience From the Nationwide Taiwan Hepatitis C Virus Registry
		Keywords:	<i>cardiovascular disease hepatitis C interferon therapy stroke sustained virologic response</i>
	e70033	Title:	Novel Endoscopic-Assisted Long Plate Approach for Mandibular Condylar Fracture Reconstruction—A Preliminary Study
			<i>endoscopic subcondylar surgery</i>
	e70026	Title:	Kussmaul's Sign Provoked by Intracardiac Metastasis of Endometrial Neuroendocrine Tumor
	e70032	Title:	Multiple Metastases to the Lungs 14 Years After Surgery for Adult-Type Granular Cell Tumor of the Ovary
