

THE KAOHSIUNG JOURNAL OF MEDICAL SCIENCES

VOLUME 42, ISSUE 9

e70196

Oncogenic KRAS Rewires Stress Granule Dynamics: Mechanisms and Therapeutic Opportunities

cancer therapy resistance | KRAS mutation | RNA-binding proteins | stress granules | targeted therapies

e70191

LncRNA NORAD Enhances Inflammatory Injury in Sepsis-Associated Acute Lung Damage Through miR-150-5p/STAT1-Dependent NF- κ B Activation

bronchial epithelial cells | miR-150-5p | NORAD | sepsis-induced acute lung injury | STAT1

e70187

PRDM1 Knockdown Promotes Ferroptosis and Sunitinib Sensitivity by Modulating the PI3K/Akt Signaling Through Inhibition of ESM1 Transcription in Renal Cell Carcinoma

ESM1 | PI3K/Akt signaling | PRDM1 | renal cell carcinoma (RCC) | sunitinib sensitivity

e70188

RBMX Transcriptionally Repressed by EZH2-Associated H3K27me3 Modification Attenuates Pyroptosis in Renal Ischemia/Reperfusion Injury via Regulating SIRT3/NLRP3 Inflammasome Activation

acute kidney injury | ischemic reperfusion injury | NLRP3 inflammasome | pyroptosis | RBMX

e70200

Glycemic Control, Animal Protein Intake, and the Risk of Diabetic Retinopathy Progression Among Patients with Type 2 Diabetes

animal protein | diabetes duration | diabetic retinopathy | HbA1c | ultra-processed food

e70193

METTL14 Regulates Myocardial Infarction Progression via m⁶A-Dependent Modulation of OTUD1-Mediated Deubiquitination of DUSP6

DUSP6 | m⁶A modification | METTL14 | myocardial infarction | OTUD1

e70194

METTL14 Ameliorates Mitochondrial Dysfunction and Autophagy in Lens Epithelial Cells of Diabetic Cataracts via m⁶A Modification of RPL3

autophagy | diabetic cataract | lens epithelial cells | METTL14/RPL3 axis | mitochondrial dysfunction

THE KAOHSIUNG JOURNAL OF MEDICAL SCIENCES

VOLUME 42, ISSUE 9

e70183

Proteomics-Based Identification of the Pyroptosis-Related Biomarker PCSK9 and Its Association With the Pathogenesis of Rheumatoid Arthritis

biomarker | NOD-like receptor protein 3 inflammasome | PCSK9 | proteomics | pyroptosis | rheumatoid arthritis

e70189

Triglyceride-Related Indices and Risk of Acute Pancreatitis: A Prospective Study in UK Biobank

acute pancreatitis | cohort study | triglyceride-related indices | UK biobank

e70192

A^uB Genotype With Weak A Antigen Expression: Resolution of an ABO Discrepancy Using Serological and Molecular Approaches

e70185

Optimizing Voice Outcomes After Recurrent Laryngeal Nerve Transection: The Role of Early and Supplemental Injection Laryngoplasty

e70184

Persistent Pulmonary Atelectasis After Tracheoesophageal Fistula Repair: Diagnostic Challenge of a Communicating Bronchopulmonary Foregut Malformation Group 1a in a Neonate With VACTERL Association
