

Vol	Page	Title / Keywords
3301	1-10	<p>Title: A meta-analysis of three identified single nucleotide polymorphisms at 1p13.3 and 1q41 and their associations with lipid levels and coronary artery disease</p> <p>Keywords: <i>Coronary artery disease, Meta-analysis, Polymorphisms, Serum lipid levels, Three SNPs at 1p13.3 and 1q41</i></p>
	11-16	<p>Title: Aberrant β-catenin expression in urothelial carcinomas in blackfoot disease-endemic areas</p> <p>Keywords: <i>Arsenic, Blackfoot disease, E-cadherin, Urothelial carcinoma, β-catenin</i></p>
	17-23	<p>Title: Association of MMP-2 and MMP-9 expression with recurrences in primary spontaneous pneumothorax</p> <p>Keywords: <i>Matrix metalloproteinase, Pneumothorax, Recurrence, Type II pneumocyte</i></p>
	24-29	<p>Title: Association of plasminogen activator inhibitor-1 and vitamin D receptor expression with the risk of keloid disease in a Chinese population</p> <p>Keywords: <i>Chinese population, Keloid disease, Peripheral blood lymphocytes, Plasminogen activator inhibitor, Vitamin D receptor</i></p>
	30-35	<p>Title: ADAMTS-3, -13, -16, and -19 levels in patients with habitual abortion</p> <p>Keywords: <i>ADAMTS proteinases, Embryo implantation, Extracellular matrix, Idiopathic recurrent miscarriage, Pregnancy loss</i></p>
	36-43	<p>Title: Comparison of renal pelvic pressure and postoperative fever incidence between standard- and mini-tract percutaneous nephrolithotomy</p> <p>Keywords: <i>Kidney calculi, Mini-tract, Percutaneous nephrolithotomy, Postoperative fever, Standard-tract</i></p>
	44-49	<p>Title: A real-world impact of cost-effectiveness of pegylated interferon/ribavirin regimens on treatment-naïve chronic hepatitis C patients in Taiwan</p> <p>Keywords: <i>Chronic hepatitis C, Cost-effectiveness analysis, Naïve, Pegylated interferon, Ribavirin</i></p>
	50-51	<p>Title: Epstein-Barr virus-positive mucocutaneous ulcer</p>
	52-54	<p>Title: Late-onset nonlesional nondominant frontal lobe seizures presenting as ictal dyscalculia</p>
