

Vol	Page	Title / Keywords
3402	71–78	<p>Title: <u>The diagnosis of microorganism involved in infective endocarditis (IE) by polymerase chain reaction (PCR) and real-time PCR: A systematic review</u></p> <p>Keywords: <i>Infective endocarditis, PCR and real-time PCR, Microorganism</i></p>
	79–88	<p>Title: <u>Application of six multiplex PCR's among 200 clinical isolates of Pseudomonas aeruginosa for the detection of 20 drug resistance encoding genes</u></p> <p>Keywords: <i>Pseudomonas aeruginosa, Multidrug resistant <i>P. aeruginosa</i>, Extended spectrum betalactamases (ESBL), Metallo betalactamases (MBL), Efflux pump production</i></p>
	89–94	<p>Title: <u>PAH mutation spectrum and correlation with PKU manifestation in north Jiangsu province population</u></p> <p>Keywords: <i>Phenylalanine, PKU, Phenylalanine hydroxylase, PAH</i></p>
	95–102	<p>Title: <u>Adult-to-adult living donor liver transplantation preoperative survey using MDCT, a single medical center experience in Taiwan</u></p> <p>Keywords: <i>Living donors, Liver transplantation, Multidetector computed tomography</i></p>
	103–108	<p>Title: <u>Microdissection testicular sperm extraction (micro-TESE): Predictive value of preoperative hormonal levels and pathology in non-obstructive azoospermia</u></p> <p>Keywords: <i>Intracytoplasmic sperm injection, Live birth delivery rate, Non-obstructive azoospermia, Testicular sperm extraction, Sperm retrieval rate</i></p>
	109–112	<p>Title: <u>An analysis of the risk factors of preeclampsia and prediction based on combined biochemical indexes</u></p> <p>Keywords: <i>Preeclampsia, Risk factors, Biochemical indexes, Prediction analysis</i></p>
	113–119	<p>Title: <u>To use the brief psychiatric rating scale to detect disorganized speech in schizophrenia: Findings from the REAP-AP study</u></p> <p>Keywords: <i>Brief Psychiatric Rating Scale (BPRS), Conceptual disorganization, Disorganized speech, Excitement, Uncooperativeness</i></p>
	120–121	<p>Title: <u>A new technique for adult hypospadias repair: A combination of TIPU and Mathieu techniques</u></p>
	122–123	<p>Title: <u>Unrelated umbilical cord stem cell transplantation in an eleven-month-old male infant with Wiskott-Aldrich syndrome</u></p>

Vol	Page	Title / Keywords
3401	1-13	<p>Title: <u>Effect of renin-angiotensin system inhibitors on survival in kidney transplant recipients: A systematic review and meta-analysis</u></p> <p>Keywords: ACEI/ARB, Kidney transplantation, Meta-analysis, Survival</p>
	14-21	<p>Title: <u>PGBR extract ameliorates TNF-α induced insulin resistance in hepatocytes</u></p> <p>Keywords: Pre-germinated brown rice, Insulin, TNF-α, HepG2 cell</p>
	22-33	<p>Title: <u>Effect of sevoflurane on the ATPase activity of hippocampal neurons in a rat model of cerebral ischemia-reperfusion injury via the cAMP-PKA signaling pathway</u></p> <p>Keywords: ATPase activity, cAMP-PKA signaling pathway, Cerebral ischemia-reperfusion injury, Sevoflurane, Hippocampal neuron</p>
	34-42	<p>Title: <u>Microarray expression profile analysis of long non-coding RNAs in thoracic aortic aneurysm</u></p> <p>Keywords: Thoracic aortic aneurysm, Long non-coding RNA, Microarray</p>
	43-48	<p>Title: <u>Endoluminal stenting for the management of leak following sleeve gastrectomy and loop duodenojejunal bypass with sleeve gastrectomy</u></p> <p>Keywords: Bariatric surgery, Endoluminal stenting, Leak, Metal stents, Sleeve gastrectomy</p>
	49-55	<p>Title: <u>The clinical characteristics of adult bacterial meningitis caused by non-Pseudomonas (Ps.) aeruginosa Pseudomonas species: A clinical comparison with Ps. aeruginosa meningitis</u></p> <p>Keywords: Adult bacterial meningitis, <i>Pseudomonas aeruginosa</i>, Non-<i>Pseudomonas aeruginosa</i> <i>Pseudomonas</i></p>
	56-64	<p>Title: <u>Dental implant navigation system guide the surgery future</u></p> <p>Keywords: Dental navigation system, Learning curve, Accuracy</p>
	65-66	<p>Title: <u>Endometriosis, an unusual case of rectal mass with bloody stool and bowel habit changes</u></p>
	67-69	<p>Title: <u>A patient suffered from not only MSI-H colon cancer but also adrenal pheochromocytoma</u></p>
