

Vol	Page	Title / Keywords	
4007	612-620	Title:	<u>Immunoglobulin A vasculitis: The clinical features and pathophysiology</u>
		Keywords:	<i>aberrant-glycosylated IgA, anti-endothelial cell antibody, COVID-19, immunoglobulin A vasculitis, pathophysiology</i>
	621-630	Title:	<u>Smurf1-targeting microRNA-136-5p-modified bone marrow mesenchymal stem cells combined with 3D-printed β-tricalcium phosphate scaffolds strengthen osteogenic activity and alleviate bone defects</u>
		Keywords:	<i>BMSCs, bone defect, miR-136-5p, Smurf1, β-TCP</i>
	631-641	Title:	<u>The role of Atg5 gene in tumorigenesis under autophagy deficiency conditions</u>
		Keywords:	<i>autophagy, autophagy-related gene 5 (Atg5), tumorigenesis</i>
	642-649	Title:	<u>Revealing potential Rab proteins participate in regulation of secretory autophagy machinery</u>
		Keywords:	<i>Rab protein, secretory autophagy, unconventional protein secretion</i>
	650-659	Title:	<u>Mechanical shear flow regulates the malignancy of colorectal cancer cells</u>
		Keywords:	<i>apoptosis, colorectal cancer, EMT, mitochondria, shear flow</i>
	660-670	Title:	<u>The value of urinary exosomal microRNA-21 in the early diagnosis and prognosis of bladder cancer</u>
		Keywords:	<i>bladder cancer, diagnosis, microRNA-21, prognosis, urinary exosome</i>
	671-677	Title:	<u>Corneal thickness and endothelial change after use of ocular hypotensive agents</u>
		Keywords:	<i>cornea, glaucoma, ocular hypotensive agents</i>
	678-680	Title:	<u>Esophageal cancer localization by sagittal computed tomography images and endoscopic measurement</u>
	681-682	Title:	<u>Predictive effects of the interactions among cesarean section, birth weight, and preterm birth on the risk of atopic dermatitis in children</u>
	683-684	Title:	<u>Takayasu's arteritis presented with empyema and acute heart failure with left ventricular thrombus in a 25-year-old woman</u>
	685-686	Title:	<u>Cough syncope: A familiar stranger</u>
