

Vol	Page	Title / Keywords	
4009	780-788	Title:	<u>The Impact of Gut Microbiota on Morbidities in Preterm Infants</u>
		Keywords:	<i>dysbiosis, gut microbiota, gut–organ axis, morbidity, preterm</i>
	789-800	Title:	<u>MicroRNA-223 alleviates inflammatory response in renal ischemia-reperfusion injury by targeting NLRP3</u>
		Keywords:	<i>MiR-223, NLRP3, renal inflammation, renal ischemia-reperfusion injury, TLR4</i>
	801-818	Title:	<u>N6-methyladenosine-mediated LINC01087 promotes lung adenocarcinoma progression by regulating miR-514a-3p to upregulate centrosome protein 55</u>
		Keywords:	<i>centrosome protein 55, LINC01087, lung adenocarcinoma, miR-514a-3p, RNA binding motif protein 15</i>
	819-829	Title:	<u>Enhancing therapeutic potential: Human adipose-derived mesenchymal stem cells modified with recombinant adeno-associated virus expressing VEGF165 gene for peripheral nerve injury</u>
		Keywords:	<i>mesenchymal stem cells, nervous system diseases, peripheral nerve injuries, recombinant adeno-associated viruses, vascular endothelial growth factor A</i>
	830-836	Title:	<u>Differential expression of host oncogenes in human papillomavirus-associated nasopharyngeal and cervical epithelial cancers</u>
	Keywords:	<i>AKT, cervical cancer, IQGAP1, MMP16, nasopharyngeal cancer</i>	
837-851	Title:	<u>Exploring the diagnostic potential of immunoglobulin A-microbiota interplay in liver cirrhosis and spontaneous bacterial peritonitis</u>	
	Keywords:	<i>Child–Pugh score, IgA, liver cancer, liver cirrhosis, microbiota</i>	
852-861	Title:	<u>Viral hepatitis moderates the impact of TGFβ1 on neurocognitive impairment</u>	
	Keywords:	<i>cognitive function, hepatitis, inflammation, polymorphism, TGFβ1</i>	
862-864	Title:	<u>Liquid silicone gel injection leading to primary squamous cell carcinoma of the breast</u>	
865-866	Title:	<u>Self-knotted feeding jejunostomy tube in an esophageal cancer patient: A case report and review of the literature</u>	
867-868	Title:	<u>Decision-making processes in artificial intelligence applications in dentomaxillofacial radiology from the perspective of Wittgenstein</u>
