

Vol	Page	Title / Keywords	
4011	962-971	Title:	<u>The role of artificial intelligence in the management of liver diseases</u> Keywords: <i>algorithms, artificial intelligence (AI), hepatitis C virus (HCV), hepatocellular carcinoma (HCC), machine learning (ML)</i>
	972-984	Title:	<u>Long non-coding RNA MALAT1 triggers ferroptosis via interaction with FUS to enhance ACSF2 mRNA stabilization in septic acute kidney injury</u> Keywords: <i>ACSF2, ferroptosis, FUS, lncRNA MALAT1, septic acute kidney injury</i>
	985-995	Title:	<u>Molecular mechanism of ALKBH5-mediated m6A demethylation regulating lipopolysaccharide-induced epithelial–mesenchymal transition in sepsis-induced acute kidney injury</u> Keywords: <i>ALKBH5, DXX5, epithelial–mesenchymal transition, miR-205-5p, sepsis-associated acute kidney injury</i>
	996-1005	Title:	<u>Complement factor B inhibitor LNP023 mediates the effect and mechanism of AMPK/mTOR on autophagy and oxidative stress in lupus nephritis</u> Keywords: <i>AMPK/mTOR, autophagy, LNP023, lupus nephritis, oxidative stress</i>
	1006-1019	Title:	<u>Berberine safeguards sepsis-triggered acute gastric damage and inhibits pyroptosis in gastric epithelial cells via suppressing the ubiquitination and degradation of Nrf2</u> Keywords: <i>Acute gastric injury, berberine, inflammation, Nrf2, pyroptosis, sepsis</i>
	1020-1028	Title:	<u>Higher skin sympathetic nerve activity as a potential predictor of overactive bladder in females refractory to oral monotherapy</u> Keywords: <i>autonomic nervous system, biomarker, overactive bladder, treatment outcome, urinary incontinence</i>
	1029-1035	Title:	<u>Prediction model of in-hospital cardiac arrest using machine learning in the early phase of hospitalization</u> Keywords: <i>Cardiopulmonary resuscitation, cardioversion, electrical defibrillation, in-hospital cardiac arrest, machine learning</i>
